

Financial Assistance/Sponsorship Opportunities

If you've worked with us before, you are aware that we will go to lengths to work with your school or organization to bring R5 Productions to your area. If you have not worked with us, know that we are committed to providing any and all assistance that we can. Please do not hesitate to ask.

Financial Assistance Promotions 2008-2009

If you wish to book our program, but your school or organization does not have the necessary funds in the budget at this time, we have several options.

The price of our assembly program will be dropped from \$1500 to \$1250 if you can help us book another assembly at another school while we are in your area.

Also, we offer our \$2000 leadership package for \$1500 if you can help us book another assembly at another school while we are in your area. This package consists of a separate one-hour assembly with a smaller group of student influencers and leaders.

This year, R5 has introduced new follow-up curriculum to our assembly programs called R5 Solutions. We want to be able to put this in the hands of every school we present at. Realizing that not every school can fit added costs into an assembly program budget, we are opening this up to the community.

*If your school can find local businesses in the community willing to sponsor the student body in the form of \$500, we will knock \$250 off the price of your assembly, as well as offer one of our follow-up toolkits (\$159 value) for free. In return, that business will have its name on our screen during the presentation, and be seen as a community leader in supporting this generation.

If you can get \$250 in sponsorships from the community, we can either wave our travel fees off the price of the assembly, or offer one of our follow-up toolkits. More information on this follow-up material can be found on the website (www.r5online.com) under the R5 Solutions section.
