Dear Mike and R5 Productions:

I cannot begin to tell you what an impact your program has had at our school. It has been over 2 months and students are still talking about your presentation. "Walk A Mile" brought out real issues that our students are facing every day, and you were able to bring awareness of these issues to our entire school population. Even the students that were not able to attend the program were inspired by what happened that day in our gym.

I really appreciate what you and your company brings to teens across America. I would not hesitate for a second to have your program back at our school next year. Thank you for what you do for these teens, which are our future!

R5 Productions is truly an incredible inspiration to students and I would definitely recommend this program to any middle/high school in America. Please feel free to contact me if you need any further information. Again, thank you for what you do!
