To Whom It May Concern:

On May 10, 2010, Mike Donahue from R5 Productions visited our high school to deliver a message to our juniors and seniors about making good choices. Though we asked Mike to speak to our group just prior to the prom season, I write this letter to recommend R5's presentation be heard at least once by all students at some point during their academic career.

Mike actively engaged over 500 students during his presentation. His delivery was appropriate, relevant, and honest. At the end of the presentation students were eager to buy t-shirts as well as his book, Reinventing My Normal. More importantly, there were students that wanted to talk to Mike after the presentation and share their thoughts and Mike was very much an active, attentive listener to all. I would rate student feedback as excellent. Many students demanded that I invite him back for future assemblies, and that is a testament to Mike Donahue and R5 Productions. Bremen High School is also happy to report that we did have a very safe, incident free prom.

I highly recommend R5 Productions.

Sincerely,

Brad Sikora
Assistant Principal
Bremen High School
